Spy Tools Directory Launches Spy Gadgets Category

New Category Offers Unique Spy Gadget Items For Use in Everyday Situations

4/07/04 - The Spy Tools Directory announced yet another expansion today, the '[Spy Gadgets](http://www.spy-tools-directory.com/spy-gadgets/)' category (<http://www.spy-tools-directory.com/spy-gadgets/>), offering items such as telephone voice changers, diversion safes, dog chasers and repellants, and other unique novelty spy items.

"Ever wished you could own those cool gadgets used by Agent 007? Well, now you can!" stated Steve Salm, lead editor. "This is a fun, new category, and we're glad to make it a part of our ever expanding Directory."

The new category offers listings for businesses offering items that are considered 'spy tools', but do not necessarily fall under the existing categories of the directory (such as [spy software](#), [surveillance equipment](#), etc.)

"We have had a lot of visitors searching our site for inexpensive spy gadgets, but up until now we didn't have any resources available to point those visitors to. Now, we hope to accommodate them with this new category."

The category allows visitors to see pictures of the items they are browsing, along with detailed information about each, and contains links to websites where those [spy gadget](#) items may be purchased online.
