XCam2 Surveillance Camera Named 'Editor's Pick' at Spy Tools Directory

Wireless, Color Spy Cam Features Excellent Video Quality for Under \$80

5/11/04 - Looking for a high quality home [surveillance camera](#) or [nanny cam](#) without paying too much? Look no further than the [XCam2](#), says the Spy Tools Directory, who recently named the wireless system its 'Editor's Pick'.

"The XCam2 is a tiny, wireless, color [surveillance camera](#) that can send high quality digital video to any PC, VCR, or TV in your house," said Steve Salm, lead editor for the Directory. "It's easily one of the best systems we've seen, and at a price of under \$80, you can't go wrong. It's perfect for the home user."

The [XCam2](#) is offered for a suggested retail price of [\\$79.99](#), comes with 2 EagleEye Motion Sensors, a wireless transceiver, a video receiver, and includes free shipping.

"You can also set up your entire house with a 3 camera package," Salm further explained. "For \$169, the 'Ultimate 3-Camera Superdeal' is by far the best value we've come across. Why just watch one area of your house when you can cover the whole place?"

"If you are looking for an inexpensive way to keep tabs on your nanny when you're away, curious about what goes on your front yard when you're not at home, or even what your kids are up to when you are at work - the [XCam2](#) system is the best system available, which is why it has been made an 'Editor's Pick' by our staff."

The 'Editor's Pick' award is bestowed upon products, items, or websites determined by the editors of the Spy Tools Directory to be of exceptional value to its visitors.
