The Private Investigation Resource - Spy Tools Directory
*New Web Directory Focuses on Private Investigations Industry, Sets Out To Become
World's Largest and Most Comprehensive Spy Resource*

9/8/03 - The Spy Tools Directory launched today, marking the beginning of what will eventually become the world's largest online spy tools, spy software, surveillance equipment, and private investigations resource.

The site will build upon the hundreds of listings it had already gathered pre-launch, and aims to maintain its focus through detailed category organization.

"Our editorial staff is up to the challenge," says lead editor Steve Salm, "By taking notes from some of the larger, more established general directories on the web, we believe that we can be successful in this undertaking."

The site currently offers free listings to all websites related to the field of spy software and private investigations, and often lists new submissions within 48 hours.
