## Web Detective: Investigate Anyone Online

*Latest Spy Tools Directory Category Expansion Includes Popular Online Detective Software Title*

**6/29/04** - [Web Detective](http://www.spy-tools-directory.com/spy-software/web-detective.html) (<http://www.spy-tools-directory.com/spy-software/web-detective.html>), the popular online private investigation software and background check utility, is the latest title to receive its own category at the Spy Tools Directory, the website announced today.

"[Web Detective](#) is one of the most powerful investigation tools available on the web today," said Steve Salm, lead editor for the Directory. "By creating this new category, we are providing our visitors with a more convenient way to access the resources it offers to them."

In addition to directing visitors to the official [Web Detective](#) website, the new Spy Tools Directory category also offers listings for websites that feature reviews of [Web Detective](#), user opinions, and testimonials.

"As with our other spy software title categories, we hope to make the new [Web Detective](#) category the authority on resources surrounding the product. If you're looking for user opinions of the product, testimonials, or just the best price on [Web Detective](#), you'll find it here," continued Salm.
